Office Action Summary	Application No. 10/798,483	Applicant(s) NAGAOKA, TOSHIYUKI	
	Examiner LUONG T. NGUYEN	Art Unit 2622	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species:

Species I: Figure 1.

Species II: Figure 2.

Species III: Figure 3.

Species IV: Figure 4.

Species V: Figure 5.

Species VI: Figures 6A-6B.

Species VII: Figures 7A-7B.

Species VIII: Figures 8A-8B.

Species IX: Figure 9.

Species X: Figure 10.

Species XI: Figure 11.

The species are independent or distinct because of the following reasons:

1/ Figure 1 (Species I) discloses two transmittance variable elements 14, 15; half-mirror 16; mirror 17, which are not disclosed in the other Species.

2/ Figure 2 (Species II) discloses shading member 211, prisms 28, 29, which are not disclosed in the other Species.

3/ Figure 3 (Species III) discloses lens holder 310, and lens holder 38, which are not disclosed in the other Species.

Art Unit: 2622

4/ Figure 4 (Species IV) discloses three transmittance variable elements 45-47; two half-mirrors 48-49; mirror 410, which are not disclosed in the other Species.

5/ Figure 5 (Species V) discloses optical elements 54, 55, 58, 59 having a reflective function and a transmittance variable function, which are not disclosed in the other Species.

6/ Figures 6A-6B (Species VI) discloses the transmittance variable element 63 is arranged between lens group G61 with negative power and lens group G62 consisted of one positive lens and one negative lens in order from an object side, which are not disclosed in the other Species.

7/ Figures 7A-7B (Species VII) discloses the transmittance variable element 73 is arranged between lens group G71 consisted of one negative lens and one positive lens and lens group G72 with positive power in order from an object side, which are not disclosed in the other Species.

8/ Figures 8A-8B (Species VIII) discloses two transmittance variable elements 85,86; optical systems 83, 84, which are not disclosed in the other Species.

9/ Figure 9 (Species IX) discloses optical system 911, which are not disclosed in the other Species.

10/ Figure 10 (Species X) discloses a check part 104 for checking photographing state, which are not disclosed in the other Species.

11/ Figure 11 (Species XI) discloses a sensor part 113 connected directly to imaging unit 112, which are not disclosed in the other Species.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1 and 3 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In

Art Unit: 2622

either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to LUONG T. NGUYEN whose telephone number is (571) 272-7315. The examiner can normally be reached on 7:30AM - 5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, DAVID L. OMETZ can be reached on (571) 272-7593. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
